

Services Available

Web Site Design

We offer a comprehensive website design service catering for small businesses and corporate organisations alike. Whether you require a simple static website, a database driven e-commerce package, or custom web application development, we can help.

Domain Names Registration

Your website will require a domain name, such as www.graphicalexpressions.co.uk to give potential customers an address to find your site. Graphical Expressions include one domain name within the price of our static website, although there is a small fee, annually to re-new the lease on the domain name.

Website Hosting

Once your website has been developed you will require the services of a hosting company to store your website so it can be viewed online. At Graphical Expressions we have various options to suit your personal requirements. We offer free hosting as part of our static website package as well as offering host space to sites developed by others company's \ individuals.

- FREE 12 Months Hosting (Worth £50) with every static website package.
- We also offer hosting for websites not development by us for a small charge depending on your requirements.
- Data transfer up to 1500MB per month (extra bandwidth can be purchased monthly or annually poa)
